

stamp

ITS Hessen (Intelligente Transport- und Verkehrssysteme Hessen)
Bessie-Coleman-Straße 7
D-60549 Frankfurt

Intentions

By bundling the expertise of those companies that are already active in the field of Intelligent Transport and Traffic Systems (ITS) in the German Federal State of Hessen we seek to unite a wealth of experience and knowledge and in this way constantly advance traffic systems. This networking not only strengthens Hessen as a business hub, but serves to support the traffic technology and telematics sector.

The collaboration between various players in the traffic sector, be it on an organizational, legal, or technical level, produces a mixture of potential cooperation partners for projects in the field of Intelligent Transport and Traffic Systems (ITS) and work in an ITS cluster in Hessen.

You are cordially invited to take part.

The Board

- ➔ Prof. Dr.-Ing. Michael Stepping (Chairman)
avinotec GmbH
- ➔ Danny Wauri
Technische Universität Darmstadt
- ➔ Elmar Jaeker
PSI Mines & Roads GmbH
- ➔ Marco Gennaro
Rhein-Main-Verkehrsverbund Servicegesellschaft mbH
- ➔ Ulrich Hahn
Hahn Projects GmbH

Competence Cluster of
Intelligent Transport and
Traffic Systems in Hessen (ITS)

The ITS Competence Cluster in Hessen

... is a central platform

- for promoting the development and implementation of innovative intelligent traffic management solutions
- for a cross-themed, inter-disciplinary transfer of traffic engineering knowledge and technology
- for internal and external networking of members
- for effective lobbying on behalf of members and for efficient external communications

Our Objectives

- Enhancing awareness of the traffic technology sector in Hessen
- Improving knowledge transfer
- Developing joint projects
- Advising the business and transport policy-makers
- Involvement in national, European, and international ITS organizations and lobbying on behalf of members
- Increasing the number of companies in Hessen benefiting from research-related subsidies
- Publications and specialist events
- Joint external communication

Who we are – ITS Hessen's members

ITS Hessen addresses companies, societies, institutions, associations and scientific facilities in the field of intelligent transport and traffic systems, and traffic technology. Furthermore, all those institutions and persons interested in supporting the objectives formulated in the statutes are invited to join ITS Hessen.

- AFUSOFT Kommunikationstechnik GmbH, ~~Königsbach-Stein~~
- Albrecht Consult GmbH
- AS&P – Albert Speer & Partner GmbH
- avinotec GmbH
- avit consult
- AVT Stoye GmbH
- CargoSteps GmbH & Co KG
- cesah GmbH Centrum für Satellitennavigation Hessen
- CN-Consult GmbH
- Geo Net solution GmbH
- Gerloff, Andreas
- GPA Global Position Address
- Hahn Projects GmbH
- Heusch/Boesefeldt GmbH
- Institut für Verkehrswesen, Universität Kassel
- ITS Germany e.V.
- Lufthansa Engineering and Operational Service GmbH – LEOS
- mein Schlemmerdepot Planungsbüro – Me. Daniel Kropp
- Mobilisis GmbH
- MyLi – Your Travelbuddy
- PSI Mines&Roads GmbH
- Rhein-Main-Verkehrsverbund Servicegesellschaft mbH
- s.a.d. Systemanalyse und -Design GmbH
- Socratec Telematic GmbH
- Swarco Traffic Systems GmbH
- T+T Verkehrsmanagement GmbH
- Technische Universität Darmstadt, Institute für Verkehr
- TelematicsPRO e.V.
- Traffic Consult GmbH
- traffic information and management GmbH
- Verband der Internationalen Kraftfahrzeughersteller e.V.
- ZIV – Zentrum für integrierte Verkehrssysteme GmbH

The Benefits of Membership

→ Access to important potential partners through ITS Deutschland and ERTICO

These in turn have close links with important authorities such as the European Commission in Brussels, and the three German Federal Ministries: Economics and Energy; Transport and Digital Infrastructure; Education and Research. You can likewise benefit from the opportunity to exert influence and lobby at national and European level through major associations and lobbying groups such as BITKOM, VDA, ZVEI, and others. Together you can promote transport telematics and management with regard to legislation and standard-setting. You will have the chance to exchange relevant information in the field of intelligent transport systems. Membership turns your expertise and the interests of ITS Hessen visible and seen by many.

→ Developing and advancing issues with a focus on traffic technology and ITS

You can use ITS Hessen to develop ideas for (flagship) projects. ITS Hessen acts as a Hessen-wide communication platform in the field of ITS, networking with players from the different sectors.

→ Use of synergies, joint external communication

ITS seeks to heighten awareness of the sector through joint external communications, for example shared trade fair stands.

→ Strengthening of the traffic technology / ITS department in the House of Logistics and Mobility (HOLM)

→ Expansion and maintenance of contact to companies, universities, and public institutions

ITS Hessen would like to create a sustainable interface between the worlds of politics, business, and science, and stimulate the overall flow of information among each other.

Application for membership of ITS Hessen

→ Institution / company / organization

→ Address

→ Contact partner

→ Telephone / fax

→ E-mail

We herewith apply for membership of ITS Hessen.

We are familiar with its current statutes* and fee schedule*.

We belong to the following corporate category:

Companies

- Less than 10 employees
- 10–49 employees
- 50–249 employees
- more than 250 employees

Associations, institutions

Scientific facilities

Natural persons

The membership fee will be invoiced following receipt of the completed application for membership and Board approval.

→ Place, date

→ Signature

* You will find the current statutes and fee schedule at www.its-hessen.de
